PROFILE

I am a motivated and adaptable Business and Information Technology student with a passion for leveraging technology to solve real-world challenges. Through my academic journey and hands-on projects, I have developed a strong understanding of the role of technology in driving business insights. My experiences in project development, problem-solving, and volunteer work have shaped me into a well-rounded individual eager to contribute, grow, and always ready to learn in a professional setting. I am excited to begin my career and explore opportunities that align with my interests in technology and innovation.

Feel free to check out my projects in my portfolio to see my recent work, where I've applied my skills in data analysis, front-end development, and problem-solving. I look forward to connecting and sharing more about the projects I've built and the skills I bring to the table.

EXPERIENCES

Volunteer Experience, Community Presbyterian Church & Nursery School

January 2024 – March 2024
